ABOUT NIC

PAC Committee

NIC Acting Programs have the counselling and approval from our PAC Board, composed of expert acting professionals committed to providing our students with the most relevant curriculum.

These board members consist of individuals with successful careers in their fields of education, casting agents, talent agents and business owners who all come together to evaluate the content and objectives of our programs.

To maintain the best programs for students to succeed in their fields of study once they graduate, these professionals work with NIC to define program content, duration, and equipment needs.

Jerry Wasserman

American professor and film and TV actor. He is a Professor of English and Theatre at the University of British Columbia.

Andrew Webster

Talent agent and manager, he regularly with over 20 years of experience.

Judy JK Lee

One of the most active, successful and respected Casting directors in Canada, Judy Lee has cast over 140 projects with notable networks including Hallmark, Netflix, Lifetime, Universal, CBC and more.

Carrie Wheeler

Carrie Wheeler is a Talent Agent and Producer based in Vancouver, Canada with 2 decades of experience in the fashion and film industries.

ABOUT NIC

What makes NIC stand out

NIC is more than an educational institution. It's a thriving community, empowering creative individuals with the knowledge, skills, and personal and professional growth that allows them to pursue their dream careers. NIC sets itself apart for its student-centred approach, which focuses on providing students with all the resources and conditions for their continued success.

Talented working instructors

Our faculty is composed of accomplished mentors, masters of their craft and a passion for inspiring their students and guiding them towards their goals.

Project-based, hands-on learning

Learn by doing; that is NIC's approach. After learning the theory, students are encouraged to experiment and test every teaching through creative projects and exercises. This balanced method is built to consolidate their knowledge by practising.

NIC Acting Success Rate

94% of NIC's Film Acting Conservatory alumni sign with an agent before graduation, allowing them to immediately step into the TV and Film industry. NIC has the highest success rate in acting programs within Canada.

Industry-driven curriculum

Each program is precisely crafted to provide students with the knowledge, skills, technique, and experience to seamlessly transition from in-class instruction to their desired field of activity, initiating their successful careers.

A supportive community

Every member of our community is an agent of our values. We believe our students, teachers, and staff are responsible for creating a safe, nurturing environment for personal and professional growth.

ABOUT NIC

Our Educational Philosophy

New Image is committed to teaching the most current and up-to-date knowledge and information in the field using the most appropriate methodology and technology available to help students be successful in their field.

Faculty and staff provide the time, guidance and effort for students to learn by doing and practice the skills involved to become excellent practitioners in their future jobs.

Programs

ACTING

Film Acting Conservatory

As a student of the NIC Film Acting Conservatory Program, you will be taught acting lessons by award-winning and experienced instructors who understand how to succeed in the field of acting.

These instructors are working actors who bring a wealth of industry knowledge and insight to students of the best acting school for TV and Film in Vancouver.

You will experience the entire scope of acting, from auditions to live theatre, and short films to learning stunts and combat stage directions. Students will participate in a professional film project and take part in a showcase to agents that will kick-start their careers. During the Film Acting Conservatory two-year program, you will be guided through a journey of self-exploration.

ACTING

We invite you to uncover your natural ability and utilize our award-winning technique to master the craft of Film and Television performing.

In each block, we will challenge you to grow as an artist and prepare for the next course ahead, as each module intensifies and builds upon the latter. This is an inspiring and life-changing program, developing the skills necessary to carve out a long-lasting career in TV and Film Acting. Specializing in on-camera performance for the world's largest acting markets, Vancouver and Los Angeles, this limited-capacity course will have you experiencing the entire scope of performing. Your education will range from live performance in

theatre to acting in an advanced on-camera film project.

ACTING

Film Acting Intermediate

In the Film Intermediate Acting Program, the student will learn how to succeed in the field of acting. Students will be guided through a journey of self-exploration and given the tools to master the craft of acting.

In each module, students will be prepared for the challenges of the next course ahead; every module of work intensifies and builds upon

the other. This is an inspiring and life-changing program that allows the student to experience the entire scope of acting from live performance in the theatre to acting in film projects.

ACTING

Acting 101

The Acting 101 program is designed to provide acting training based on the highest industry standards. This means the student will be prepared to act professionally by doing scene study (read, write and research) including an in-depth analysis of plays, playwrights, characters and notable actors and directors that have made the plays famous.

The program provides voice training, focusing on vocal power and projection, excellent diction and

elocution. Also, acting movement and improvisation fundamentals are part of the training so students are able to go deeper in their emotional, physical and text work.

This program prepares the student with comprehensive training, not only in performance but the skills required to be successful.

MAKEUP

Film Makeup Masters

There are many Makeup Schools that will give you merely the skills to get a job in Film Makeup. But at New Image College we don't teach that, we offer you the expertise for a career. We ask that you think bigger, accept the fact that you can become what you want to be. At NIC, we nurture creativity and will mentor you to become the artist you were born to be.

From beginning in our fundamentals of makeup course, we will guide essential techniques for TV & Film makeup and then build the skills into airbrush techniques.

Throughout this intensive program, students are continually challenged as they enter high fashion, makeup for photography, Stage and Set, and then transition into out-of-kit special effects.

After mastering the art film aging, bald caps, injury, scars and more, we will allow your artistic brain to flourish in the Prosthetic Arts course. As a comprehensive understanding of Film Makeup is key to kickstarting a career, we will place your skills to work as you experience first hand on a professional short film project.

MAKEUP

Professional Makeup Artist

In the Professional Makeup Artist program, students learn and experience practical, hands-on teaching.

Students are first introduced to the fundamentals of makeup knowledge, safety procedures and applications. They discover, practice, and understand basic skincare,

colour theory, product knowledge and correct equipment use.

Students then explore basic hair styling and design for film, fashion, weddings, and special events. This naturally merges with a course in bridal where students discover the wedding industry business and the makeup designs that go with it.

ESTHETICS

Esthetics

Our esthetics program is unique in that our students are provided with a limitless practical spa experience in a spa atmosphere that prepares them for real-world success.

During the facial module, students will learn thorough skin analysis and consultation techniques that will help them determine skin types and conditions. Students will master the use of the magnifying lamp, hydradermie machine, steamer, and high-frequency machines, including anaphoresis and cataphoresis applications.

Treating the skin by using the correct products and services will allow the students to see transformations in themselves and their clients.

Students learn about the art of healing touch in the body module. Starting with correct massage techniques and perfect posture, the students will learn how to execute a well-rounded healing and relaxing treatment, including relaxation, aromatherapy, pregnancy, warm stone, and cellulite massage. They will continue with hair removal, lash and brow tinting, back facials, and body wraps.

ESTHETICS

Students transition into the nail module learning all about correct nail care including strict sanitation protocols. They will be fully confident with manicures and pedicures before they move into reflexology, sea salt scrubs, paraffin, and warm stone massage. The program moves on to nail art, including gel and acrylic enhancements. This program teaches the latest techniques in nail art design using freehand with brushes and the use of decals accessories. The students will finish the module by learning ear piercing and semi-permanent lash extensions.

ESTHETICS

Nail Technician

The Nail Technician course is specifically designed for you to be ready to work upon graduation. This course's success lies in its well-rounded structure and its emphasis on practical learning.

Throughout this four-and-a-half-month intensive certification, you will learn the art of spa manicures and pedicures, including paraffin, exfoliating scrubs, hot oil, and hot stone massage techniques. In addition, we will delve into the ancient art of reflexology treatments, focusing on how this alternative healing method can lead to long-lasting health for the body and mind.

No other nail design school in Vancouver can offer such a

comprehensive curriculum that is designed to benefit the practical learner.

The student will then move on to artificial enhancements. This section will include tips, forms, acrylic, gel and silk overlay applications using creative nail products. The last portion of the diploma focuses on nail art and the use of all the different tools and equipment used to create masterpieces. The student will get to explore their creative side and experiment with the many different techniques that create a unique, beautifully created nail. Overall, this nail program is all a passionate student needs to succeed as a nail technician in this ever-evolving industry.

ESTHETICS

Nail Studio

NIC's Nail Studio Program offers a comprehensive training tailored for a thriving career in the nail care industry. Focused on practical skills such as manicure, pedicure, nail artistry, and professional ethics integrated with safety practices, this program ensures a robust foundation. As the student delves into nail anatomy, diseases, and proper tool usage, the curriculum covers all subjects with a practical approach, emphasizing hands-on proficiency.

The program ensures students are well-prepared for a diverse range of techniques, guiding them from fundamentals to advanced nail artistry. This educational journey transforms their passion for nail care into practical expertise, laying the groundwork for success in nail care and artistry.

Youth Classes

Our six-week, 26-hour Online Acting for the Camera Program is audition-focused, teaching participants the intricacies of the audition process, how to capture casting directors' attention, and honing their performance skills. With a strong emphasis on text analysis, improvisation, and performance techniques, students gain confidence and unleash their creativity. The program's interactive online classes connect learners with mentors and peers in real-time, fostering a dynamic and purposeful learning experience.

YOUTH

Youth Programs

We believe it is never too early to start honing your craft. Not all minds are created the same. For some, the thrills of palettes, brushes, and airbrush guns outweigh the excitement of algebra and the War of 1812! For others, they dream of being on screen or to perform in front of an audience. At New Image College we provide the most comprehensive SPFX training for young adults who want to learn industry techniques today, so they are a step ahead in their education for tomorrow.

PART-TIME

Part-time programs

Education is paramount in this industry, and at NIC, we believe in constant learning and staying sharp. That's why we offer a diverse array of custom workshops tailored to fit everyone's timetable, addressing specific facets of the craft.

Our part-time continuing studies programs are laser-focused on providing intense training through short courses led by our dynamic instructors. NIC takes pride in fostering a community of self-driven actors who support and collaborate with each other towards common goals.

Partners

We believe that partnerships are crucial to staying connected with the acting industry and providing our students with the best possible education.

That's why we have formed strategic partnerships with a variety of organizations in the industry, including talent agencies, directors, charities, fundraisers and educational sector organizations. Through these partnerships, we are able to stay up-to-date on the latest industry trends and developments, ensuring that our curriculum remains relevant and cutting-edge.

Our partnerships with talent agencies and directors also provide us with valuable industry connections, allowing us to bring in guest speakers and provide our students with unique opportunities to learn from established professionals. In addition, our partnerships with charities, fundraisers, and acting development institutions allow us to contribute to important causes and stay connected with the wider acting community.

This helps us to create a nurturing and prosperous environment for our students, while also promoting the broader goals of the acting industry.

The British Columbia Thespians is the provincial chapter of the International Thespians Society, which is an honour society for theatre students and a division of the Educational Theatre Association. B.C. Thespians support teachers and their students across the province by providing a variety of learning opportunities and advocating for quality theatrical arts education.

The Educational Theatre Association (EdTA), is a nonprofit organization whose mission is to promote theatre education by honouring student achievement in theatre and enriching their theatre education experience; supporting teachers by providing professional development, networking opportunities, and resources; and influencing public opinion that theatre education is essential and builds life skills.

A cinematic scene from a film set. In the foreground, a man with a bloody forehead and a dark jacket leans against the side of a silver Sheriff's Office patrol car. The car has a star-shaped badge on its door and the number '47'. Behind him, a blue banner with the word 'INTEGRIDERM' is visible. To the right, a camera crew is filming the scene. A man in a grey t-shirt and dark shorts holds a professional video camera, while another man in a dark shirt and headphones stands nearby. A boom microphone is suspended over the scene. The background shows a blurred outdoor setting with trees and a building.
